

PROPERTY: Juneau County Forest
TRACT: 06-23
LOCATION: Sec 23 T18N – R2E
TOWN NAME: Cutler
SALE AREA: 35 Acres

These Lands are third party certified

Contract Period: 26-months

Minimum Acceptable Bid: \$25,397.60

Species	Volume (Tons)	Species	Volume (Tons)
White Pine	1800	Jack Pine	30
Red Maple	100	Mixed Hardwood*	26
Spruce	100		
Black Oak	90		

*Contains a mix of cherry, white oak, white birch

Sale Objectives:

- The white pine stand within this harvest has been affected by age and wind damage, and this clearcut with reserve trees will allow the release of advanced regeneration in the understory. Limit damage to regeneration as best possible.

Harvest Designations:

- Harvest all trees 2” in diameter and larger. Prevent damage to residual trees. See below for additional cutting specifications. Do not cross drainage ditches. 1-3, preferably large, snags per acre will be retained to benefit wildlife.

Access

- Access is off County Road M west of sale and powerline ROW, or 23rd St W to south of sale, in Cutler Township. See map.

Cutting Specifications:

- All designated merchantable trees (5” and larger DBH that contain at least one 100” stick) must be utilized to a 3” minimum top diameter for conifers, 4” minimum diameter top for hardwoods. Minimum diameters may be smaller, at the contractor’s discretion, to increase utilization.
- Stump heights may not exceed half the diameter of the tree.

Sale Requirements:

- Tops must be spread out over sale area and must not exceed 36 inches in height.
- Slash also must be pulled off and away from all forest road edges.
- All forest roads must be maintained in a passable condition during the sale.
- Heterobasidion Root Disease (HRD) preventive treatment must be done on all fresh cut pine stumps (within 24hrs) between 4/1-11/30. Treatment must be performed by a certified pesticide applicator and a dye must be added to the liquid to facilitate inspections
- Wisconsin Best Management Practices (BMPs) for water quality, invasive species and biomass harvesting must be followed where applicable. Buckthorn is present at this site- all equipment shall be cleaned prior to arriving and before departing the site to prevent the spread of invasive species.
- All roads, trails and landings must get final approval by county forest administrator prior to construction. Approval from townships must be made prior to landing or loading on town roads.

Sale Conditions:

- **Scaling method:** Wood delivered to approved mills may use truck/mill ticket system with tickets provided by seller. Seller reserves the right to scale any other wood products at the landing.
- **Bid Bond:** 20% of the total estimated value of the sale will be submitted as bid bond. Seller may retain the bid bond if the successful bidder fails to sign a contract.
- **Performance Bond:** 20% of the total estimated sale value will be submitted when the contract is signed. If a letter of credit is used, a separate letter must be provided for each tract. The performance bond must have at least a 27-month duration, which should expire at the end of the month following the end of the contract.
- **Notification:** The county forest administrator must be notified at least 24 hours prior to: The start of cutting, when leaving, or when re-starting.
- **Contract:** A copy of the proposed timber sale contract, which may contain additional terms and conditions, is available upon request. Timber sale contracts may not be assigned. Extensions are only available upon the approval of the Juneau County Forestry Committee. Stumpage rates may be increased with each extension at the discretion of the committee.
