CHAPTER 400 OBJECTIVE

The purpose of Chapter 400 is to identify policy and procedures relating to:

1. The acquisition of land to be enrolled in County Forest pursuant to s. 28.11(4) (b), Wis. Stats. or other lands possessing special or unique values areas that are not suited primarily for timber production to be entered under s. 28.11(4) (c), Wis. Stats., special use classification.
2. The acquisition of lands throughout the county for the purpose of future trading for priority parcels to be enrolled in County Forest pursuant to s. 28.11(4)(b), Wis. Stats.
3. The acquisition of land interests such as conservation easements, first right of refusal, or other land rights of the benefit to county forests.
4. Location, identification, and protection of county forest ownership boundaries.

400 COUNTY FOREST OWNERSHIP

The majority of the County Forest lands throughout the State were previously in private ownership and came under public ownership in a substantially degraded condition, by way of real estate tax delinquency and subsequent tax deed to Counties. Continued attempts to sell much of the degraded tax deeded lands were unsuccessful. In response to the lack of demand from private owners, counties worked in cooperation with State and Federal Agencies to restore these lands into productive forests and recreational assets. (“The County Forests of Wisconsin”, WI Conservation Dept., 1938)

Over time, counties have realized benefits from continuing to retain select tax deeded land, acquiring select land from willing sellers by purchase, trade, or gift, and the continual protection of county forest ownership boundaries. Juneau County is no different. In 1933, under the initial County Forest Crop entry by Juneau County, approximately 54,000 acres were enrolled of previously tax delinquent lands. In 1936 the federal government purchased approximately 49,000 of the original acreage from the county to establish the Necedah Wildlife Refuge and the Meadow Valley Wildlife Area. This left approximately 7,300 acres in the County Forest, but additional tax delinquent lands were acquired over subsequent years to increase the county forest by another approximately 6,000 acres. In 2013, an additional 876 acres along the Yellow River in the Town of Finley were purchased

using Knowles-Nelson Stewardship Funds and a County Forest Project Loan. After that addition, future land swaps and enrollments of other county owned lands brought the total county forest acreage to what it is today at 17,798 acres.

405 LAND OWNERSHIP GOALS

It is the goal of Juneau County to acquire land from willing landowners for fair prices established pursuant to Uniform Standards of Professional Appraisal Practices or other method approved by the County. See section 420 for criteria on how to achieve these goals.

410 COUNTY FOREST BLOCKING

Since the beginning of the County Forest Program in the State of Wisconsin, counties established boundaries for the purpose of distinguishing between lands that were best suited for forestry and lands best suited for agricultural production. This boundary became referred to as a “Blocking Boundary” and provided public information, assisted long-term planning, and guided management decisions.

In the early stages of the development of County Forests, counties commonly traded tax deed parcels that were located outside of the Blocking Boundary for the remaining privately-owned parcels within the Blocking Boundary. A primary purpose for these trades was to promote agricultural economic development by assisting farmers with obtaining the most productive agricultural lands available in a given County.

Blocking Boundaries are dynamic and should be evaluated on a routine basis to evaluate adequacy relative to the current priorities. Forestry staff will notify the Committee as parcels become available within the Blocking Boundary.

County Forest Blocking Boundaries are established by Committee and by subsequent approval of the Juneau County Board. A map of the official boundaries is found in the Appendix.

415 PRIVATE INHOLDINGS

Juneau County recognizes that extensive private landholdings lie within the forest boundaries. The County will respect the rights of the private landowners who are its neighbors. The County may approach private landowners with proposals for land purchases or trades, but will not coerce landowners to sell or trade.

In the following table, Juneau County has identified a few priority properties that make the most sense for acquisition:

Property	Acres	Location	Legal Desc.
Allens Acres	116	Armenia Township	T. 20N-R.4E. Sec. 24 NWNE, SWNE, SENE
Bentz Family 40 Acres	40	Finley	T. 20N-R.3E. Sec. 23 NESW
CERES Timber	120	Clearfield	T. 17N-R.3E. Sec. 6 NWSE, NESE & Sec. 5 NWSW

Other properties that could make sense in future acquisitions are identified in the County Forest Blocking Boundary map in the Appendix section 1000.3.

420 ACQUISITION OF LAND WITHIN THE COUNTY FOREST BLOCKING BOUNDARY

The land within the blocking boundary includes private land as well as land owned by Juneau County and other government entities. It is not the deliberate intent of Juneau County to acquire all lands within the blocking boundary.

Lands within the County Forest blocking boundaries or areas possessing special or unique values shall be recommended to the County Board for acquisition as they become available. Determination of a parcel’s value to the County and the State of Wisconsin shall be made by the Committee in consultation with the County Forest Administrator.

Certain lands are considered to be of higher priority for acquisition due to:

1. Lands that improve management efficiencies such as reducing the length of private/public boundaries or improve access to existing county forest.
2. Lands that will increase the counties inventory of productive timberland and provide

a consistent source of raw material to the forest products industry.

3. Lands that conserve surface and groundwater, maintain undeveloped shoreline, and increase public access to water features.
4. Lands that are threatened by private development or fragmentation that may result in a long-term negative impact on adjacent public lands.
5. Lands that are threatened by private development or fragmentation that may result in a long-term net negative impact to local and county governments.
6. Lands that will provide for priority trail connections and expansions or reduce or eliminate existing user conflicts.
7. Lands that contain threatened or endangered plant, animals, or communities; or other natural features considered to be of high conservation value.
8. Lands that, when acquired by the county, will not result in an unreasonable negative impact to local tax collections as determined by the Committee in consultation with the affected Towns.

425 ACQUISITION OF LAND OUTSIDE THE COUNTY FOREST BLOCKING BOUNDARY

Counties may consider acquisition of lands outside the blocking boundary in instances where:

1. Land becomes available to the County which possess values consistent with the priority criteria listed above and is eligible to be enrolled as County Forest Special Use under s. 28.11(4) (c) Wis. Stats.
2. Land becomes available to the County that, if acquired by the County, will facilitate a fair trade or other transaction resulting in county ownership of land within the county forest blocking boundary.

430 ACQUISITION OF LAND RIGHTS

In addition to acquiring fee simple land ownership, Counties may find it advantageous to acquire other interests in private or public lands within the blocking boundary such as:

1. Conservation easements for such purposes as:

- A. Limiting residential density.
 - B. Managing runoff that affects county land.
 - C. Achieving greater Silvicultural consistency, pest management, invasive species control, research, or other on adjacent private lands.
2. First right of refusal.
 3. Flowage easements.
 4. Ingress and egress easements for county management purposes.
 5. Maintain recreational trail connectivity.

435 METHODS AND AUTHORIZATION FOR ACQUISITION LAND TITLE OR RIGHTS

Acquisition may be by outright purchase or trade based on competent appraisal of the value or values involved, or by gift, bequest or action to foreclose tax liens. The County Forest Administrator will be the agent of the Committee in making first contact with potential sellers and in carrying on acquisition activities.

In the event that the County Forest Administrator determines that a land or land rights acquisition is in the best interest of the County, in consideration of the factors described above, the County Forest Administrator shall present a recommendation to the Committee. Upon approval of the Committee, an authorizing resolution shall be forwarded for consideration by the County Board.

County Board authorization is required for execution of any legal instruments that bind the county to acquiring title or other land rights. In the event that any legal documents are signed by an agent(s) of the county, prior to County Board authorization, said legal documents must include an explicit contingency requiring County Board approval.

440 FINANCING

County Forest Administrators shall propose financing options as part of any recommendations to acquire forwarded to the Committee. Typical funding sources include:

1. Fund balance from the county general fund, project account.
2. Funds appropriated through the County's capital budgeting procedure.
3. Grants and Loans, including:
 - A. Loans
 - i. County Forest Project Loans ([s. 28.11\(8\)\(b\)\(2\)](#)), [Wis. Stats](#))
 - ii. Variable Acreage Share Loans ([s. 28.11\(8\)\(b\)\(1\)](#)), [Wis. Stats](#))
 - iii. Board of Commissioners of Public Lands State Trust Fund Loan Program ([s. 24.61\(3\)\(a\)\(2\)](#)), [Wis. Stats.](#))
 - B. Grants
 - i. Warren Knowles-Gaylord Nelson Stewardship Program ([s. 23.0953](#), [Wis. Stats.](#))
 - ii. County Forest Stewardship Subprogram ([s. 23.0953](#), [Wis. Stats.](#))
 - iii. Acquisition and Development of Local Parks Subprogram ([s. 23.09\(20\)](#), [Wis. Stats.](#))
 - iv. Lake Protection ([s. 281.68](#) [Wis. Stats.](#))
 - v. River Protection ([s. 281.70](#) [Wis. Stats.](#))
 - vi. County Forest Wildlife Habitat ([s. 20.370\(5\)\(as\)](#)), [Wis. Stats.](#)
 - vii. County Forest Fish and Game Projects ([s. 23.09\(12\)](#), [Wis. Stats.](#))
 - viii. ATV/UTV Trail Aids ([s. 23.33\(9\)](#), [Wis. Stats.](#))
 - ix. Snowmobile Trail Aids ([s. 23.09\(26\)](#), [Wis. Stats.](#))
 - x. Federal Funding ([s.20.370\(5\)\(cy\)](#), [Wis. Stats.](#))

445 ENTRY OF LANDS

Lands to be entered under the regular classification of the County Forest Law must be suitable for forestry purposes and be within the County Forest blocking boundary. Lands designated for classification as County Forest -Special Use need not be contained within the county forest blocking boundary nor suitable primarily for timber but they must be suitable for scenic, outdoor recreation, public hunting and fishing, water conservation or other multiple-use purposes.

445.1 TIME OF ENTRY

Application for entry of newly acquired lands under the County Forest Law will be made as soon as possible. Applications for entry will be prepared with the assistance of the DNR Forestry Liaison. The County Forest Administrator will secure the signatures of the proper county officials and transmit the application to DNR's County Forest & Public Lands Specialist.

450 WITHDRAWAL OF LANDS FROM COUNTY FOREST LAW

Lands within the County Forest blocking boundary will not normally be considered for withdrawal from the County Forest Law. Applications for the purchase of these lands by the private sector will be discouraged by the committee, unless a greater public benefit can be demonstrated. If, in the opinion of the committee and county board, the land will be put to better and higher use and will benefit people of the county and State to a greater extent by being withdrawn from the County Forest Law program, the County should follow the withdrawal procedure as outlined by the [Public Lands Handbook](#). The legal means by which counties may apply for withdrawal of lands from County Forest status is provided by s. 28.11, Wis. Stats. Initially the County Forest Administrator notifies the DNR Forestry Liaison Forester of the County Forestry Committee meeting at which the proposed withdrawal will be considered. At that meeting DNR personnel and the County will discuss the proposed withdrawal and, if approved by the County Forestry Committee, the withdrawal will be recommended by the Committee by resolution to the County Board. If approved by the Board by the necessary 2/3 majority, the application is prepared by the county and submitted to the appropriate DNR designee. The DNR may ask for additional information from the County. Pending the results of any investigatory hearings deemed advisable, the DNR will act on the withdrawal application. If the application is denied, the County may appeal as provided in s. 28.11(11) (a) 4, Wis. Stats.

450.1 WITHDRAWAL PROCEDURE

The purpose of this section is to provide general information in formulating and processing applications for withdrawal of County Forest lands under s.28.11 (11) Wis. Stats. and Ch. NR 48, Wis. Adm. Code. The legal means by which counties may apply for

withdrawal of lands from county forests is provided by s.28.11 (11) (a) Wis. Stats. This section states in part: “The County Board shall first refer the resolution to the county forestry committee which shall consult with an authorized representative of the department in formulating its withdrawal proposal.” Section. 28.11 (11) (a) Wis.Stats. also states: “The county board shall not take final action thereon until 90 days after such referral or until the report thereon of the forest committee has filed with the board.”

Consequently, if the county board takes final action on a withdrawal application without referring it to the County Forestry Committee, the application is not valid. On the other hand, if the County Forestry Committee does not report to the county board within 90 days after receipt of the referral, the Board may act upon the application without a Committee recommendation.

455 LAND SURVEYING

The importance of survey corner monumentation is recognized in the interest of avoiding the problems of trespass both by and against the County, facilitating the settlement of those cases which would occur, and aiding in the proper transfer of property.

455.1 LEGAL SURVEYING

Of prime importance are the forest boundaries and property lines in common with other owners. All such surveying shall be under the supervision of a registered surveyor. When the office of the county surveyor is not staffed, the committee will comply with the provisions of Chapter 59, Wisconsin Statutes by hiring registered surveyors to perform the necessary running of property lines. Section corners, one-quarter corners and forty corners (1/16 corners) will be reestablished where needed and Certified Land Corner Restoration forms filled out in duplicate as time permits, under the direction of registered land surveyor.

455.2 LOCATION OF LINES BY OTHER THAN LEGAL SURVEY

Forestry personnel who are not registered surveyors may, with all possible prudence, establish lines for forest management purposes including those necessary for ordinary management activities such as timber sales and road / trail locations using available equipment including,

but not limited to, air photos, quadrangles, county surveyor's records, sub-meter GPS units, and known corners. In the absence of known corners, lines abutting other ownership may be established by mutual agreement to avert trespass claims. At a minimum, notify the adjoining landowner(s) of the management boundary in writing. This documentation should be retained in the timber sale file.

455.3 PRESERVATION OF LANDMARKS, MONUMENTS, AND CORNER POSTS

Section 59.74, Wis. Stats., provides:

1. Penalties for destruction of landmarks, monuments and corner posts established by government survey, the county surveyor or a surveyor or public record.
2. A procedure for notification of intent to destroy such surveying evidence and referencing prior to destruction.
3. The assignment of enforcement responsibility to the Department of Natural Resources, District Attorneys, and professional land surveyors

All personnel with land management responsibilities are directed to:

1. Make a reasonable search for the above-mentioned surveying evidence prior to implementing any soil moving or cover type manipulation projects, including timber sales, that could result in covering, destruction or removal of such evidence.
2. In the event such evidence is found:
 - A. If practical, redesign the project so that the evidence will not be disturbed or
 - B. If destruction is unavoidable, (s [59.74\(2\) \(b\), Wis. Stats.](#)) notify the county surveyor at least 30 days prior to destruction giving the legal description of the monument and the reason for destruction or other obliteration. The notice shall include a description of the landmark, monument of survey, or corner post and the reason for removing or covering it. .
3. If reasonable search fails to uncover survey evidence in the suspected vicinity, conduct an additional search if he / she sees fit.
4. In order to further reduce the possibility of inadvertent destruction of invaluable survey evidence:
 - A. Each forester with county forest responsibilities should discuss with county administrators the need for including adequate protective clauses in easements,

rights-of-way, timber sale contracts, and other agreements that might result in destruction of monuments.

- B. Personnel advising landowners regarding forestry or other land management practices should alert such owners to possible monument destruction that may be caused by them.
- C. Any instances of potential or accomplished obliteration of survey monumentation discovered in the course of field operations should be brought to the county surveyor's attention.

460 TERMS OF LAND SALE OR TRADE

All sale or trading of county lands within the forest boundaries shall be subject to terms established between the Land, Forestry, Parks & Zoning Committee and the party which will receive land from the County.

460.1 VALUES AND ACREAGE OF LAND SALE/TRADES

- 1. For outright land sales, the sale price shall not be less than twice the appraised value of the land being sold.
- 2. For land trades, the acreage received shall not be less than twice the acreage traded. The appraised value of the land received shall not be less than twice the appraised value of the land being traded.
- 3. Combinations of land and cash may be considered, but the 2:1 ratios described above will be observed. An example would be a 1:1 land trade, plus the appraised cash value or the land being traded. Other similar combinations are possible.
- 4. Transactions at less than a 2:1 land/value ratio can be considered, but only when there is exceptional advantage to the County in terms of land value, blocking, etc.

460.2 ASSOCIATED COST

All costs such as appraisals, legal surveys, abstracts, title insurance, transfer fees, recording fees, notices, etc. shall be borne by the party initiating the land transaction. Withdrawal applications shall clearly state the person or entity responsible for such costs.

460.3 DEED RESTRICTIONS

The consideration of deed restrictions will be evaluated on a case by case basis for the purchase, sale, or trade of lands as there is currently no policy in place. Deed restrictions include but are not limited to mineral rights or public hunting & fishing rights. The Juneau County Land, Forestry and Parks Department is currently developing a policy for deed restrictions to have available in the near future.

465 PROPERTY RIGHTS CONVEYANCES

The instrument used for property right conveyance shall be the one which relinquishes the least amount of County control over public land. All property right conveyances will be made on a case by case basis. Examples are listed below:

- A. Easements: An easement is a permanent right that entitles the easement owner to use of the land of another for a special purpose not inconsistent with the general property rights of the owner. Easements run with the land and do not expire. They may be appropriate for public utilities, such as gas, electric and communication uses, and public road rights-of-way.

Easements shall not be used for access to private lands unless there is exceptional advantage to the County Forest, and unless the easement further promotes the purposes of the County Forest program. The Committee may consider easement requests on a case by case basis. The County Forest Administrator will consult with DNR's County Forest & Public Lands Specialist on these cases.

- B. Lease: A lease is a written document which grants use of real property and/or improvements to another party for a specified period of time, for monetary or other consideration. Specific County Forest Law provisions regarding leases can be found in ss. 28.11(3) (i) and (j), Wis. Stats. Leases on County Forest lands shall be negotiated for the shortest possible period of time and in no case shall they exceed ninety-nine years.

- C. Permit: A permit is a written document conferring a right, power or privilege to do a particular act or series of acts on land of another without possessing any interest therein. A permit can be revoked with cause and cannot be assigned to other parties. A permit, unlike an easement, does not imply an interest in the land and is not transferred with the land. Permits issued on County Forest lands shall be issued for the shortest possible period of time and in no case shall they exceed ninety-nine years.

Permits shall be the preferred property rights conveyance for private driveways and most other activities dealing with the private individuals using County Forest lands. The Juneau County Land, Forestry and Parks Department is currently developing a policy for a County Forest Access Permit to have available in the near future

- E. Agreement: An agreement is a written document executed by two or more persons or entities expressing a mutual and common purpose. An agreement details the responsibilities, obligations, conditions, liabilities, etc. of all parties concerned and would be an appropriate instrument for dealing with activities such as public school forests, flowages, gravel crushing operations, and concessions. Agreements shall be effective for the shortest possible time.

465.1 TERMS OF PROPERTY RIGHTS CONVEYANCES

Any agreement, license, permit, lease or easement must contain at least the following information, requirements and terms. More restrictions may be added as needed to protect the interests of the public.

- A. Location by legal description.
- B. Permitted uses under the conveyance.
- C. Fee for the use of the land.
- D. Expiration date.
- E. Right of the County to cancel or suspend the conveyed rights with cause.
- F. Requirement for restitution to original condition upon expiration or cancellation of the conveyance.

465.2 PROCEDURES FOR PROPERTY RIGHTS CONVEYANCE

Proposals to use County Forest lands for private purposes without purchasing the land may be approved depending on the nature of the proposal and its consistency with the purpose of the forest. The following steps are required to consider property rights conveyance to a second party:

1. All proposals must be filed with the Land, Forestry and Parks Department on the appropriate form with the required processing fee and supportive documentation. (See Land Transaction Policy and Procedures in Appendix 1010.5). Municipalities, other units of government, and public utilities may be exempted from the processing fee by the Land, Forestry, Parks & Zoning Committee.
2. If the proposal can be addressed through a permit or agreement as defined in Section 465, then a report shall be presented at a regular meeting of the Land, Forestry, Parks & Zoning Committee. The Committee shall consult with the DNR Liaison on the matter. The Committee may then approve, deny, or modify the proposal.

470 TAX DEED LAND

Occasionally tax delinquent lands revert to the County. The lands may lie within the County Forest Blocking boundaries and may be added to the County Forest lands. The following procedure shall be observed:

1. The Forest Administrator will advise the Land, Forestry, Parks & Zoning Committee of opportunities to add tax delinquent land within the County Forest boundary as they occur. The Land, Forestry, Parks and Zoning Committee will consider the proposals and decide whether or not to add the land to the County Forest.
2. If the proposal for addition is approved, the Land, Forestry, Parks & Zoning Committee shall seek majority approval from the County Board and apply to the Wisconsin Department of Natural Resources to enter the land under County Forest Law.
