

INDUSTRIAL AND RECREATION COMMITTEE Minutes

January 14, 2020

10:30 a.m.

Location: Juneau County Courthouse, 220 E. State Street, Conference Room 105, Mauston

Meeting was called to order by Chairperson Feldman at 10:30. Committee per diems and sign in was completed. The full committee was in attendance.

Vicki Greenwald, HR Specialist for 3 Parker Hannifin manufacturing plants, provided a company overview. Parker is a worldwide corporation and has plants all over the world. Vicki is also the HR specialist for one of their plants in Canada and also a plant in Illinois. The Mauston Plant has low employee turnover due to the excellent benefit package, compensation, and profit sharing. The plant produces high end value for use in many industrial and HVAC applications.

Committee members shared economic development updates from around the county. The County Board Christmas lunch and program was reviewed and members felt it was a positive event. Committee also reviewed their attendance at the Nekoosa Water Quality meeting.

UW-Madison Division of Extension CRD Agent Kirking shared updates on the Advanced Leadership Program, Lunch and Learn Professional Development Series, and other office initiatives.

Meeting was adjourned at 11:48 by Chairman Feldman.

Respectfully submitted,
Gary Kirking
Temporary Recording Secretary
